

REGISTERED PARAMEDICS (CASUAL POSITIONS)

First Response Australia (FRA) is one of Australia's most respected registered training organisations, offering emergency care programs and services since 1989. Our diverse organisation prides itself in being at the forefront of innovation in learning and technology in emergency care. FRA provides a complete service in pre-hospital care from our extensive range of training programs; supply of specialised emergency care equipment and event medic coverage for events.

Due to our continued growth and demand for 'Event Medics', we are seeking 'Registered Paramedics' for a variety of events (concerts, festivals, functions, camp drafts, sporting events) to join our team. The successful candidate will enjoy a rewarding career with a pioneering and people focused company. The position is to be based in Cairns, Tropical North Queensland.

FRA is approved by Qld Health to carry a range of emergency medications to be used under our 'Clinical Practice Guidelines' (CPGs). Our CPGs are reviewed and governed by an FRA 'Medical Advisory Panel' including an Emergency Physician who is our 'Medical Director' supporting FRA with medical consultation as required.

SELECTION CRITERIA

- Must be based in Cairns, Qld
- Must have current Paramedic AHPRA Registration
- Must have at least 2 years minimum industry experience
- Must be flexible and willing to travel to remote areas for work
- Ability to work unsupervised
- Enjoy working as a team
- A pro-active approach to continuous improvement
- High standard of presentation
- Excellent time management and planning skills
- Have a current Australian Driver's License (manual)
- Cert IV in Assessment and Workplace Training (TAE40116) would be a bonus
