

# First Response Australia

## Product Information

### Bleed Control Kits - The most comprehensive available !!!!

To compliment our new 'Control the Bleed' program, FRA has designed 2 kits for the control of life threatening external bleeds - 'Bleed Control - Standard' and 'Bleed Control - Professional'

Both kits are housed in quick access 'Cyropak' modules. They can be added to existing kits as a module or be 'stand alone'.

These represent the most comprehensive kits available today - equipped with ready and easy to use life saving devices. FRA has chosen only 2 brands of tourniquets for it kits - the SOFT-T and the MAT. Both proven in the field. The choice is yours.
